Professional Summary

Java Backend Developer (Fresher) with hands-on experience in building RESTful web applications using Java, Spring Boot, JDBC, and MySQL through academic and personal projects. Strong foundation in OOP, MVC architecture, authentication, and CRUD operations.

Education

Medi-Caps University

B.Tech in Robotics and Automation (GPA: 6.38)

Aug 2022 – May 2026

Indore, India

The Krishna Valley School

Higher Secondary Education – 67%

May 2022

Bhopal, India

The Krishna Valley School

Secondary Education – 71%

May 2020

Bhopal, India

Certifications

Core and Advanced Java Certification

Java Programming

- Strong understanding of OOP concepts, exception handling, collections framework, multithreading, and core Java APIs.

Industry Ready Java Spring Developer

Java and Spring Framework

- Hands-on experience with Spring Core, Spring MVC, Spring Boot, RESTful web services, and database integration using JPA and Hibernate.

Projects

Restaurant Web Application (JSP, Servlet, JDBC, MySQL) — 2024

- Developed a Java-based web application using Servlets, JSP, JDBC, and MySQL following MVC architecture.
- Implemented CRUD operations, authentication, validation, and session management using DAO and Service layers.
- Designed Admin Panel, Menu Management, Table Booking, Login/Logout, and Order Management modules.

Monthly Challenge Tracker Application (Spring Boot, React) — 2025

- Built a full-stack REST API application using Spring Boot, React, and Spring Data JPA.
- Implemented CRUD functionality and database integration using H2.
- Integrated frontend and backend using RESTful services and Bootstrap.

Portfolio Web Application (Spring Boot, JSP, MySQL) — 2025

- Developed a Spring Boot-based portfolio application using Spring MVC, JSP, and MySQL.
- Implemented CRUD operations, file upload/download, validation, exception handling, and transactional management.
- Integrated Spring Security with CSRF protection and JWT-based authentication.

Technical Skills

- **Languages:** Java, Python, SQL, HTML, CSS
- **Backend and Frameworks:** JDBC, Servlets, JSP, Spring Framework, Spring Boot, Spring MVC, Spring Data JPA, Spring Security
- **Web and API Technologies:** RESTful API Development, MVC Architecture, JWT Authentication, API Testing
- **Databases:** MySQL, H2, SQL
- **Tools:** Git, GitHub, Postman, Apache Tomcat, Eclipse, IntelliJ IDEA, Visual Studio Code
- **Core Concepts:** Object-Oriented Programming, CRUD Operations, Authentication and Authorization, Exception Handling
